

Moray Council

Environmental and Commercial Services

Engineer - Flood Risk Management MOR09787 – (£32,176.95 - £45,730.10 dependant on qualifications and experience)

The successful applicant will be a member of Moray Council's engineering design team reporting to the Senior Engineer. This opportunity involves providing engineering support in delivering civil engineering schemes for the Council primarily relating to Flood Risk Management. The successful candidate should be able to communicate well and support Senior Engineer and management team in the delivery of our duties. We are looking for an Engineer with a HNC or above in Civil or relevant subject preferably with exposure to Flood Risk Management.

For further information contact Will Burnish on 01343 563757 or email: Flooding@moray.gov.uk
