

Title: Civil Engineer

Location: Wakefield

About the role:

We are looking for a Civil Engineer to join a growing design consultancy and provide ongoing technical design support to a range of clients in the UK with ongoing work available and excellent development opportunities for the right individual.

As a Civil Engineer you will be working on a range of residential, commercial and education projects and should be able to demonstrate experience in completing design on projects in these sectors.

Within the role as a Civil Engineer it will be essential for the chosen individual to complete accurate reports and designs, and your input and contribution to the team are viewed as essential in the continued development of the business.

About you:

Candidates should have a minimum of 4 years experience working for UK based design consultancies, and a background working on similar projects is desired in order to ensure a close match to the existing and upcoming workload.

In addition to having a confident, commercial and professional outlook you should have:

- Degree in Civil Engineering
- Minimum of 4 years UK based experience
- Experience working with drainage design and flood risk assessments
- Strength in working to appropriate agreement sections - S38, S278, S104, S106
- Strong analytical, communication and technical design skills
- Excellent communication skills in both written and spoken English
- Driving license and own vehicle essential

Software required:

- AutoCAD
- PDS
- MicroDrainage
- Microsoft Office suite

About the business:

The company are an established design consultancy who have been working on UK based projects across the last 10 years, and have built up a reputation for working on projects to a high level of detail and client satisfaction. This is an excellent opportunity to join their Wakefield office where their team continues to go from strength to strength and provide excellent design engineering services to their UK based clients.

With a portfolio that includes residential, commercial and education projects of varying value and complexity, they have a wealth of experience and some exciting future projects that have lead to them requiring another skilled and eager individual to join them as part of their business development.

Benefits package:

- Company pension
- 25 days holiday + Bank Holidays
- Bonus scheme
- Health plan
- Flexible working
- Free parking
